

Arbor Day Foundation®

We inspire people to plant, nurture, and celebrate trees.

Trees for Pets® Honor the memory of a beloved companion.

They're more than our pets. They're our *friends*. They carve out a special place in our hearts and in our lives. What better way to honor them than with the gift of trees? Honor the memory of a beloved companion. For every \$5 donation, one tree will be planted and cared for in an American forest. Included in the cost is the printing and mailing of a personalized Trees for Pets certificate.

As you seek a fitting manner to remember a lost companion who has meant so much, imagine restoring grandeur to a forest in desperate need. Celebrate treasured recollections by planting Trees in Memory of your pet or to comfort someone who has recently lost a pet. By planting Trees in Memory you memorialize their life in a living, vital way that grows grander through the years.

Our Trees for Pets program allows us to show just how special our clients are while at the same time making a difference in the world. Each Trees for Pets certificate honors a special companion by planting a tree in their honor or memory in our nation's forests to help replace grand trees that are lost each year to fire or disease.

Remember the great times you have shared with your devoted companion, the creature whose unconditional love you never questioned? Now you can do something special that shows just how much your pet has meant to you.

Strong, healthy trees are important to all living creatures who share the Earth. From environmental gains to the social advantages we enjoy when admiring their beauty in our landscape, the benefits of trees touch each of us daily. Yet they face serious challenges, challenges like fire, disease, and insects that can destroy stands of trees that have taken decades to grow.

By planting Trees in Celebration or Trees in Memory of your pet, you honor your pet with a lasting symbol of your devotion while sharing a healthier world with everyone.

Our clients are grateful for the card, and they're thrilled that the love of their pet is making a difference in the environment through the planting of trees.

Dr. Megan Ehlers, Lincoln, Nebraska

Animals are such agreeable friends—they ask no questions, they pass no criticisms.

George Eliot
